

ENDO BIOGENY: Personalized Medicine

Endobiogeny is the science of wellness, going beyond sickness and health. A revolution in healthcare, this personalized medicine treats you, not just your symptoms. Developed in Paris, France by medical doctors, Endobiogeny has been used for over 20 years in thousands of patients to get to the root of illness and effect deep healing where other approaches have not worked. Combining medical science, laboratory analysis and natural healing, Endobiogeny **detoxifies, fortifies, and restores balance.** *The Endobiogenic method can be used with your traditional treatment plan, to reduce or eliminate the need for medication.*

Endobiogeny

- In-depth approach
- Gets to the root of problems
- Stimulates natural healing
- Detoxifies and heals
- Preventative health
- Predicts future health issues

Conventional Medicine

- Limited approach
- Treats Symptoms
- Suppresses natural healing
- Over-loads detox pathways
- Waits for illness and disability
- No way to predict future health issues

If you suffer from the following, the Endobiogenic method could be right for you:

An Illness

- With no diagnosis
- With no name
- With no medical therapies
- Not responding to medical therapies
- Not responding to natural therapies

Family history of Chronic Disease

- Cancer: new or survivor
- Autistic Spectrum

- Chronic Lyme or Parasites
- Women's health issues
- Diabetes/Metabolic
- Digestive issues
- Neurologic disorders
- Mental Health issues
- Men's health
- Infertility
- TMJ (Temporo-mandibular joint)
